Variable Outgoing Announcement

THE CODE-A-PHONE 1450

Increase home security with your Code-A-Phone 1450.

An unanswered telephone can be a burglar's tipoff, but an appropriate announcement can make it hard to tell you're away. Even when you're at home, let the 1450 answer and screen calls. You hear the caller on the line—and you choose which calls to answer. Ring delay lets you decide when to answer the phone. Set it to answer on the first ring—or on the fourth. When you're in the house—you can answer. If you're at work in the yard, the 1450 takes the message. Speed through your calls without listening to dial tones between messages. Simply "beep" again and the 1450 fast forwards to the next message almost instantly. That's Remote Command. But of course, the 1450 offers much more.

IS TVRO FOR YOU?

OVER 4,000 ALREADY SOLD!

TVRO-Your Ticket to the Stars!

A TVRO (Television Receive Only) earth station receives and utilizes TV microwave signals broadcast by domestic communications satellites. It collects these signals with a dish-shaped antenna, then feeds them through a series of electronic components to an ordinary TV set. Channel Master home earth stations feature only three major parts – the dish, LNA (Low Noise Amplifier), and a receiver with remote control console.

Satellite TV Gives You More!

You'll get hundreds of hours of unique and exciting programming every week. More news, 24 hours a day, live while the action is hot. More sports, with exclusive live-action coverage. More movies, more specials, religious programming, special interest programming, educational, cultural, the variety is absolutely incredible. There are 11 satellites broadcasting video programming on dozens of channels—the only problem with satellite TV is deciding what to watch!

Crystal Clear Reception

Not only does satellite TV bring you an incredible variety of programming, it's also amazingly sharp and clear. Picture perfect, like a studio monitor, satellite TV comes direct from the studio, to the satellite, to you—without interference or interruption—and at less than the cost of a new compact car!
